Center for Education and Research in Information Assurance and Security
Third Annual Research Symposium - April 2002

Roster

Eric Bryant, Jim Early, Rajeev Gopalakrishna, Benjamin Kuperman, Gregory Roth, Scott Yost

Advisor: Gene Spafford

<http://www.cerias.purdue.edu>

Center for Education and Research in Information Assurance and Security
Third Annual Research Symposium - April 2002

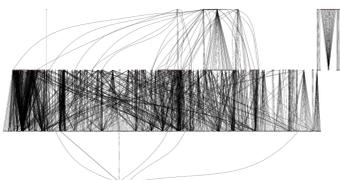

Goals

- Increase immunity to network attacks
- Improve performance
- KISS – Keep It Simple and Secure !

Third Annual Research Symposium - April 2002

Secure/Hardened OS

- TrustedBSD
- Security Enhanced Linux
- Bastille Linux
- Immunix

<http://www.cerias.purdue.edu>

Center for Education and Research in Information Assurance and Security
Third Annual Research Symposium - April 2002

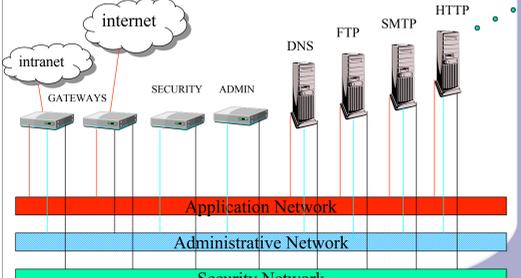

Approach

- Secure/Hardened OS
 - Add new security mechanisms
 - Modify/Enhance existing security mechanisms
- Secure Server Architecture
 - Simplify to achieve better security
